

The Power of the Fool Card

The fool card is so compelling. It's such a soul invitation that says, remember all of you call forth, connect in with this new expression that hasn't been invited to step forward, to be expressed, to be experienced, to be explored, to expand. This is the experience of the Fool Card. When people come for readings and I get really excited for them about the Fool Card and say, "Be open." Say yes to everything, because you don't know which part of you is going to be asked to step forward, that you get to explore and expand your own self-expression in this our school journey. It's a very exciting time. It's fully charged, and it could be some slight adjustment in your expression. Maybe, I don't know.

You expand in this small way that reveals this gem aspect of your being, of your embodiment, your soul embodiment that says, "Oh, I love this part. This is so challenging and stretching and creating and exploring, and I love this." Or it could be something that really takes you deep in a specific way, or it could just be like a playful component that says, "I never knew I wanted to do this, and now I can never not want to do this."

Whatever it is, it's about being open, which is in and of itself is such a playful thing. It's such a wonderful component to remember as adults, oh, I just get to play. That's also very huge, and so this is the energy that this month holds for you. I hope you find it. I hope it finds you that you get to connect and giggle and expand and enjoy the invitation, the Sacred Invitation from the Fool.

Love and Light,
